**IMPORTANT!! Prior to installation of service, a complete floor plan is required.** Please utilize this grid should you not have your own floor plan to send us. You may use a different floor plan for each service group (Telephone, Internet, etc.) or combine all services on one floor plan. For a floor plan to be considered complete it must include all the information listed below (Main Distribution Location "MDL", designated location of items within the booth, surrounding booths, scale-length and width).

## SPECIFY YOUR DESIRED LOCATION OF SERVICES

**X = MAIN DISTRIBUTION LOCATION (MDL)**

The originating line(s) for service, whether overhead, a floor pocket or a column, will be delivered to a "MDL" before booth distribution. Example: Storage area, back of booth, etc. Unless specified, the default for the "MDL" will be the back of the booth or where Smart City's deems the most convenient. All distribution of services to their final destination within the booth will originate from the Main Distribution Location "MDL". A per line move fee will apply to relocate services within your booth after they have been engineered and/or installed.
